Self-taught and still evolving mosaic artist! Started doing mosaics in 2017 using mostly tiles that I inherited from a neighbor and created a birdbath. A couple of workshops under my belt and studying other mosaic artist work I have expanded my materials to include glass, beads, bike chain/bullet casing, china ... to add depth and texture to my work.

My subject matter varies from abstract, whimsical, yard art, to pet portraits (love doing). I'm excited to continue on this glass painting journey with limitless possibilities.
