www.tomhauslerphotos.com

Nature and Wildlife photographer.

Capturing wildlife in their own habitat is challenging but rewarding. When I am in the field it's about the thrill of the chase and I can't wait to capture the next image. Thank you for taking the time to view my images.

Travels have taken me to Ecuador, Argentina, Guatemala, Honduras and other Central and South America countries. One of my favorite areas to photograph is Rocky Mountain National Park in Colorado.

I enjoy hiking, exploring and taking photos in all National and State Parks; and local nature areas.
