I am a visual artist and work in various mediums to express my art. Most of my paintings are in Watercolors, Acrylics, and Oil Paints. My paintings are inspired by my multicultural background, nature, culture, people, lifestyle, and travels. I love to experiment with my paintings and styles vary from realistic to abstract. Every single art I create from my soul to inspire, bring joy, happiness, smile, beauty, and gratitude, even in things that appear insignificant and invisible during our busy lives.

I am very thankful for this lovely gift, and I nourish it with paintings, coaching arts and being active in my local art community.
