Our Imagination is a vehicle, it can take you anywhere! I truly believe that when you allow yourself to experiment with your artwork, can imagine that texture, color or light, you can create it. My art is a reflection of how I see life and light in objects and people. I have been painting since I was a child and my main concentration is acrylic paint and mixed media. My mother, grandmother and great grandmother have the artist talent and I feel a great connection to my family when I allow myself the time to paint.

It is a joy to paint and I always love to share that joy with others. I have painted murals in newly built homes and have worked on murals for community theater. I hope to continue contributing creatively to my community here in the Bee Cave/Lakeway/Spicewood area.
