Katie works in Lakeway Texas with a range of media. A sense of whimsy and fun weave themselves throughout her pieces. She predominately works with watercolors or acrylics accented with ink, which adds a storybook quality.

Her work reflects her love of color, pattern, and texture in combination with a representational style. She takes liberties with her color palette often straying from reality.

She extends her work beyond 2D creating jewelry from combinations of art papers, fabrics and other materials. Katie also loves dabbling in the traditional folk Art of the Ukrainian Egg.
